

Requirements for Registration of ET Calves from Overseas Sires and Dams. (Imported into New Zealand).

Donor Dams and Sires:

- 1) Certificate of embryo transfer supplied by a recognised transplant centre.
- 2) Pedigree Certificates (3 generations) of Donor Dam and Donor Sire from country of origin or from the approved Societies Internet Database.
- 3) DNA profile for Donor Dam and Sire.
- 4) Certificate stating that Donor Dam and Sire have been tested free of Mannosidosis and any other genetic disorder for which the Council may require testing OR all calves from that mating to be mannosidosis tested.

Fee:

\$10.00 per ET calf will be charged when calves are registered.
