Wairarapa National Angus Conference & Ward Tour

CHAIRMAN'S WELCOME

Dear Members & Friends

On behalf of the Wairarapa Angus Assn I extend a very warm welcome to you all to attend the Wairarapa National Angus Conference & Ward Tour and hope that you can join us for an exciting Tour of our region visiting Angus Studs and attractions along the way.

The Wairarapa Angus Conference & Ward Tour will be held between the 2nd and the 5th of April 2023 kicking the tour off with Registrations, NZ Angus AGM, dinner at the Copthorne Hotel & Resort Solway Park and concluding with lunch at the renown Borthwicks Homestead & Gardens on Wednesday the 5th of April. There will be some diverse speakers on the Angus Conference & Tour.

The Wairarapa Ward is very grateful for the support of all of our Sponsors. We really appreciate their support and hope that you can support them.

Thanks to the NZ Angus Assn staff for their support and everyone who has helped in some way with this Wairarapa Angus Conference & Ward Tour. Also special thanks to the Conference Committee and Wairarapa Angus Assn members for all their help.

Please ensure that you return your Registrations by the due date to enable you to receive a discount.

We look forward to welcoming you all to the Wairarapa.

See You There.

Yours Sincerely,

Willie Falloon

Wairarapa Angus Assn
Chairman

- 4.15pm Ladies can change in the Cottage
- 5.00pm Nibbles
- 6.00pm Dinner Streetfood Caterers
- 7.00pm Hoedown at Oregon includes a Band

Coaches depart for the Copthorne at various times.
First coach departs 9-9.30pm

GLANWORTH ANGUS STUD

Shaun & Fi Fouhy and Joe & Lea

Glanworth was founded by the late Thomas Fouhy in 1892 and developed out of large standing native bush. Four generations on it's now run by Shaun, Fiona and their three children, Thomas (7), Isla (5) and Harris (3).

The property now covers 1000 hectares and ranges in contour from flat to steep hill and is run primarily as breeding and finishing farm. Along with the cow herd the property also runs a Romney ewe flock and incorporates a trading component.

Glanworth Angus stud was founded by Shaun's late grandfather Pat in 1952. Performance recording began in 1962. In 1967 Waigroup angus was formed in conjunction with the Pinebank and Shalom herds. The initial breeding focus was around fertility, low/moderate birth weight, early growth, soundness and temperament. In later years an increased emphasis has gone on growth and carcass quality to ensure the cattle are delivering what the market requires. Sires were initially sourced from within Waigroup herds but more recently outside bloodlines have been used mainly through AI, this has helped benchmark the Glanworth cattle's performance.

Glanworth now calves 280 cows including 2YO heifers. The herd is run as commercially as possible and are expected to groom pasture to optimise sheep performance and production.

TAPIRI ANGUS STUD

Rob & Lucy Thorneycroft

Rob and Lucy Thorneycroft welcome you all to Rangitumau and look forward to hosting everyone on the Wairarapa Angus Ward Tour.

Our stud was founded by Stuart and Ross McLachlan (Lucy's grandfather and father) in 1961 from females purchased when Mr F.D. Shaw dispersed his Rawaka Stud. We run 120 Angus females – heifers are mated as yearlings. We aim to produce efficient, productive, structurally sound, quiet Angus cattle. Bulls are sold at our on-farm auction in June. Current sires include: Kaharau Olympic Q327 and Tapiri 118, son of Braveheart of Stern. AI sires in the last few years include Braveheart of Stern, Matauri Reality 839, Kaharau George 589, Whenuapapa Crumble and Kaharau Prince P333.

Alongside the Angus stud, we also have a Southdown Stud, and run a commercial Romney/Coopworth flock of 1000 ewes. In addition, our North Wairarapa property, Benmore, is a breeding/finishing farm and has a base of 2,500 breeding ewes and 100 commercial Angus cows. The two properties complement each other, totalling a 7,000 su operation.

In 2015 we were pleased to win the Wairarapa Sheep & Beef Farm Business of the Year competition and continue to be involved in this to develop and celebrate farming excellence in our industry.

Thank you for visiting us, we hope you have a fun and enjoyable Wairarapa Tour.

KAYJAY ANGUS STU

Neil, Joan, Roddy & Sam Kjestrup

Welcome to KayJay Angus Celebrating 65 Years of Breeding. KayJay Angus was established in 1958 by brothers Terry & Graeme Kjestrup. Cows were sourced from several Studs including Cricklewood, Elgin & Waiterenui. Neil & Joan purchased & have been farming the KayJay Angus Business since 1993 also buying an adjoining property to enable them to build up the Stud cattle & sheep numbers. More recently with the purchase of a neighbouring property Tyneside in 2019 Roddy & Sam bought into that property & the farming business with Neil & Joan.

Today the farming operation consists of 590ha with the majority being medium to easy rolling hill country. This year we have mated 190 stud females including 45 r2 heifers, with heifers being mated for the last 40 years. The sheep side of our business consists of 2,300 ewes & 500 hoggets mated annually with all lambs finished on farm. Over the years the KJ brand has become renowned for producing powerful cattle that carry huge amounts of flesh. We place huge emphasis on the efficiency of the breeding cow, temperament & the ability of that cow to breed an animal that will add value into the beef industry at every critical stage. The KJ premium is realised all over New Zealand & we are proud to offer these industry leading Genetics. We hope You All enjoy the 2023 National Angus Conference & Ward Tour in the Wairarapa.

We keep you growing

Our key reason for being in business is to help you grow. Both in respect to helping you improve the land you farm through technological and innovative techniques, also about helping you improve your bottom line and increasing your work productivity.

We believe in providing our customers with the complete package from the start, and ultimately we achieve this with our people. At our dealership you will find highly skilled, passionate, parts, service, and sale's teams working together to do their utmost to keep your business growing.

Proud to support NZ Angus Beef Breeders and the 2023 Wairarapa National Angus NZ Conference

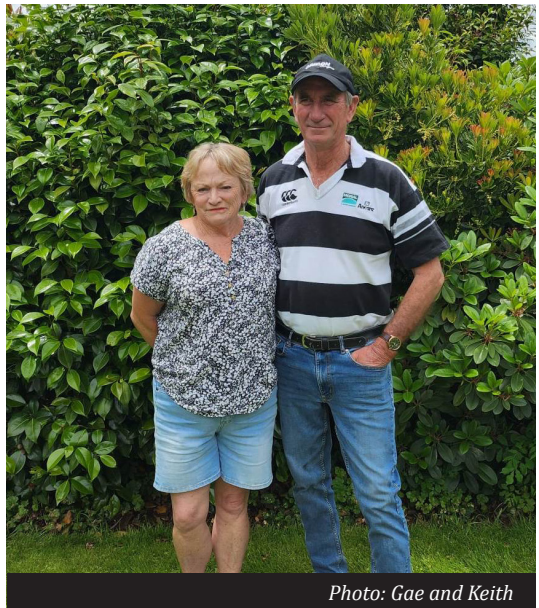

OREGON ANGUS STUD

Keith & Gae Higgins

Oregon Angus Stud was established in 1997 in Wairau Valley, Marlborough. Twelve years later, we moved to Wairarapa. Morland consists of 567ha, 540ha effective. We run just on 5000su, consisting of 60% sheep and 40% Angus Stud cattle. Since 2009 we have extensively developed the farm with drainage, fencing, and pasture renewal on the property which has put Morland in great heart. Also maintenance and up-keep of all the buildings including our 102 year old Homestead.

We've built our stud cow herd numbers to 200 for mating, including 55 yearling heifers. This enables us to put up a good line of 35 Bulls every year at our on farm Sale. Some of our most influential Sires have in the last 25 years have been, Brackenfield Timber Top, Waiwera 042, Oregon Junior 637, Oregon Dynamite I5, and the mighty Matauri Smokin' Joe K286 who has put the Oregon Angus Stud where it is today.

Keith and Gae are looking forward to seeing you at the Hoedown at Morland on April 3rd and we hope you all enjoy your Tour.

PINEBANK ANGUS STUD

Willie & Ang Falloon

Pinebank was founded in 1919 by the late Henry Falloon, with his son Gavin taking over in 1946 and running it for the next 47 years. Gavin was awarded the jubilee bronze medal from the New Zealand Society of Animal Production for Services to Animal Breeding. Willie is the third generation of the Falloon family to administer the Pinebank stud. The cow herd is based upon pure Scottish and New Zealand bloodlines. The Pinebank stud is totally commercially run and the cattle are bred for the environment for which they run under. Pinebank is mating around 400 cows annually and sells around 70 R1 bulls and 40 R2 bulls each year to the beef industry. We are very pleased to have a great working relationship with the Fouhy family that has lasted three generations and we look forward to continuing to work with them in the future. Willie and his wife Angela were recognised by their peers in 2017 winning the Wairarapa Sheep and Beef Farm Business of the year award. The farm business has performed in the top 1% of its land class for the past 10 years with an average lambing percentage of 157% and calving of 96%. We hope you all enjoy what the wonderful Wairarapa has to offer.

Photo: Willie, Angela and family

TIROHANA

PUKEATUA STATION

Bruce & Vicki Didsbury

We look forward to welcoming the Wairarapa National Angus Conference and Ward Tour Group to Pukeatua Station in April 2023. Pukeatua Station was originally subdivided from Lagoon Hills Station. It was purchased by the Didsbury family in 1999. In 2009 a neighbouring property, Harakeke, was added to the station. It is a 2,600ha hill country property located 20 minutes east of Martinborough. Currently we are running 7,000 ewes, 500 cows and their replacements. We hope you enjoy your time at the station and wish you all the very best for the Wairarapa National Angus Conference and Tour.

McFADZEAN CATTLE CO.

Johnie & Laura McFadzean

McFadzean Cattle Company was founded in 2018 after 45 years of breeding high performing hill country cattle. After 5 years of successful sales and recent expansion of our commercial business an opportunity came up to purchase a specialist low birth weight easy calving Angus herd. We purchased 20 stud females from Meadowslea and a further 100 females from Puketi Angus which are now farmed alongside our Super Angus & Meat Maker herd at Glenbrae Station. The McFadzean families commercial operation farms 18,000 ewes and a total of 1500 in calve females which includes 400+ yearling heifers which are mated annually. From a commercial farming aspect we fully appreciated the necessity for specialist heifer mating bulls.

Our breeding objectives are to produce low birth weight, high growth rate bulls without compromising on constitution or temperament. Our first year of selling McFadzean Cruizy Calve bulls was a real success with bulls going all over the country, with 2/3 going into beef herds and 1/3 going into the dairy industry. This year's calves feature the sire Stokman Real Deal with a Calving ease DIR of 13.2.

DANDALOO ANGUS STUD

Angus & Trish Thomson

Welcome to the highest point of the tour. Dandaloo Angus Stud is 560 meters above sea level, 496 hectares nestled in the Maungaraki Range. Stock is accustomed to all climatic conditions where every season is felt from snow to heatwave.

We are currently stocking around 200 cows and 1500 ewes. All lambs are fattened along with culled cattle.

David and Barbara still have a keen interest in the stud and farm with a wealth of information to share.

This year in the sale will be the first sons of Rangatira 648 which is a grandson of Turihau Crump E5 which has bred very well, and the genetic line up here is looking impressive.

We wish to acknowledge our many long-standing valued clients from the Wairarapa Area, whom we have worked alongside with for over 30 years.

A special mention of our long relationship with the MacDonald family of 50 years, and Gard'ner family of 40 years.

As we say at Dandaloo: "Coming together is the beginning. Keeping together is progress. Working together is success".

- Quoting; Henry Ford.

TE WHANGA ANGUS STUD

DISPERSAL NOTICE

50 X R2 HEIFERS

50 X R3 HEIFERS

Sale Date Thursday 6th April

Time tbc – mid morning

Photo: Rob and Robin Borthwick

The Wairarapa Angus Assn are sorry to see the Dispersal of the Te Whanga Angus herd. For three generations Te Whanga and the Borthwick family have been a big part of our local Breed Assn and our community.

We wish them all the very best for their up coming sales, and thank them for the work and effort they have put into the Angus Breed over the last 87 years – and we wish them all the best for the future.

Photo from left: Jock, Guy, Percy, Bruce, Ebony and Jason

TE WHANGA ANGUS STUD

Paddy, Sarah & Robin Borthwick

The history behind Te Whanga Angus goes back to P.J. Borthwick, who initially bought cattle from Waiterenui and Pharazyn Studs in the Hawke's Bay. Those first animals had at least a weeks journey by foot and rail from the Hawke's Bay before reaching their new home at Te Whanga in 1936.

Te Whanga is a 1700 ha property. We winter 14000 stock units with a 65:35 sheep to cattle ratio. We believe Te Whanga is the perfect testing ground for Angus cattle. The stud cattle are run in a completely commercial environment on Summer dry East Coast country that is lucky to see 800 ml of rainfall a year and only grows five and a half ton of dry matter over the course of a year. The stud is only 15% of the total stock units and must fit into the larger commercial operation. The Breeding philosophy at Te Whanga has always been a simple one, breeding quality Angus cattle that are fertile, structurally sound with impeccable temperament that will shift well into any commercial property around the country.
